DETAILED ACTION

Response to Amendment

In response to the amendment filed February 14, 2008 wherein applicant amends claims 1, 5-6 and claims 1-6 are pending in this application.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Louis DelJuidice Reg. No. 47,522 on April 9, 2008.

The application has been amended as follows:

Please change in claim 1, line 22, the word "the" to --its-- between the words changes and own.

Please change in claim 5, line 18, the word "the" to --its-- between the words changes and own.

Please change in claim 6, line 22, the word "the" to --its-- between the words between and own.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest according to claim 1, 5 and 6, a remote control toy system comprising: a transmitter having a control signal generating device which allows a control signal to include specified information according to a specified operation by a user; and a driving device which has a storage device which holds a first parameter and a second parameter. An offense signal transmitting

device transmits an offense signal which includes information based on the first parameter. The driving device has a first parameter change device which, when the driving device does not receive an offence signal from another driving device during a predetermined time after receiving a control signal having specific information from the transmitter, changes its own first parameter based on specific information which is included in the control signal. The closes prior art to Yamaguchi discloses a Main gun power corresponding to the first parameter and the value of Life corresponding to the second parameter. Yamaguchi's fails to neither disclose nor suggest changing the first parameter, because Yamaguchi's first parameter is constant and does not change and the relationship between the second parameter and the offence parameter is also constant, thus fails to disclose and teach the change of the relationship. Yamaguchi neither discloses nor suggest that the relationship is changed by a control signal generating device as amended.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
